

OLD RATIO BETWEEN SILVER AND GOLD URGED IN CONGRESS

WASHINGTON, D. C., Feb. 10.—Declaring that foreign exchange had become "the sinister international problem" within the last six months and unless adjusted soon "commercial chaos would overwhelm international trade," senator Thomas, Democrat of Colorado, urged in a speech today the reestablishment of the old ratio between gold and silver and the creation of international institutions.

"The time has come," he said, "when Americans should take the initiative and reestablish the ratio of 1893 for the establishment of a parity between the national monetary metal, whose relative values now fluctuate between 15 to 15 to 1."

Problem Facing Europe. Europe, senator Thomas declared, faces the problem of reestablishing and reconstructing her foreign trade and would welcome any system of international stabilization of silver and gold values that could be accomplished without endangering the financial structure of international commerce or credit. The slow but steady rise in the value of silver during the war in spite of efforts to prevent it more than restored the old equilibrium between gold and silver, he said, until today gold is the cheaper metal, and it, rather than silver, bears the dominating influence of an international agreement.

The United States cannot coin silver dollars today except at a loss, senator Thomas said, and the conditions will soon apply as well to fractional currency.

As such a basis he declared the value will go to the melting pot as fast as they are made and inevitably precipitate throughout the world a famine in fractional currency unless the ratio be adjusted by international agreement.

"The value of paper money in the world is out of all proportion to the value of specie," he said, "and in

ASTHMA WOULD'NT LET HIM LIE DOWN

Hasn't had a sign of trouble now for over 9 months.

"A year ago I had asthma so bad my friends thought I would never get over it. I had to get up for a short time every 2 weeks, could not even lie down straight in a chair. I was in bed for 2 weeks, but even then I could not go to bed and sleep easily. After taking eight bottles of Milt's Emulsion I found myself completely cured. It is over 9 months now since I have had a sign of asthma."

—Geo. W. Baker, R. F. D. 2, Groh, Pa.

Who shouldn't Milt's Emulsion help you? It has worked wonders for others. It costs nothing to try. Milt's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, gets away with all kinds of poisons, promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milt's Emulsion is strongly recommended to those whose strength has weakened, and is a powerful aid in restoring and repairing the effects of wasting diseases, chronic stomach trouble and constipation are promptly relieved.

This is the only solid emulsion made, and so palatable that it is even with a spoon in the cream. No matter how severe your case, you are urged to try Milt's Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Tel. 516, \$1.50 per bottle. The Milt's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Adv.

100,000 Prescriptions Were Filled Before "40" Was Discovered.

J. C. Mendelhall, Evansville, Ind., spent 40 years in the drug business, compounded over 100,000 prescriptions from physicians located in Europe and America before "Number 40" was discovered. The great remedy for rheumatism, neuralgia, catarrh, constipation, hepatic congestion, dyspepsia and stomach trouble, and for all kinds of skin eruptions, has been discovered. It is a simple, safe, and effective remedy that has withstood all other treatment, wholely.

YOUR COMPLEXION CAN BE MADE WHITE, SOFT AND YOUTHFUL

By the Use of the BLACK and WHITE Beauty Treatment.

Every woman wishes to appear beautiful. The average modern tattoo her skin, fixes rings in her nose and uses other crude ornaments to make herself more attractive. An example of present-day beauty among civilized women is a soft, velvety skin and a radiant complexion.

To improve your complexion, you should not use anything that hides your faded, pimply, blotchy skin. Such cosmetics last only a few hours, and are injurious to the delicate skin tissue in many cases.

You can make your complexion beautiful by removing the faded, dark, sallow, blotchy skin with the BLACK and WHITE Beauty Treatment, which consists of a creamy ointment and soap. This beauty treatment will not injure the skin and is easy to apply. By regularly using the BLACK and WHITE Soap, then mix and apply BLACK and WHITE Ointment according to directions.

The BLACK and WHITE Beauty Treatment will remove pimples, blackheads, liver spots and other unsightly blemishes of the skin. Remember that the BLACK and WHITE Beauty Treatment is different from other cosmetics in that it removes—does not cover or hide—the blemishes.

You can buy BLACK and WHITE Ointment and Soap at all good drug stores for 50c each package, with both post-paid on receipt of 50c.

Brands Dempsey Slacker; Drink Water For Health

Dr. Charles Barker, in his address Monday night at the First Christian church, branded Jack Dempsey as a slacker and a man who sold his name for a few paltry dollars to the patent medicine trust. The speaker reminded the audience of the statement made by "the trust" after Jess Willard defeated Jack Johnson for the world championship, that Willard used a certain tonic for three months before the fight. Immediately following the fight at Toledo on last July 4, when Dempsey knocked out Willard in the first few minutes of fighting, the statement was made in glaring advertisements, he said, that Dempsey had used the same tonic for three months before the fight. This proved conclusively, said the speaker, that ninety percent of the testimony of the patent medicine trust is bogus.

Dr. Barker blamed the public school system for a great many of the prevalent diseases today because the children are not allowed to take a drink of water as often as desired.

He said in the Bulgarian schools the government compels the teachers to allow the child to drink as much water as he wished and as often as wanted. This is one of the many reasons why the Bulgarians live to such a ripe old age, he asserted. He also said there were over 400 Bulgarians in the last big war, who were over one hundred years old. In the United States there are only three men over one hundred years old. One is an Indian, one is a negro of Washington, and one is a negro in Kentucky.

The important simple rules suggested for clearing sluggishness are as follows:

1. In morning, drink one glass of warm water, followed by one glass of cold water five minutes apart.
2. Lie on floor, on the back, and exercise as suggested for four minutes.
3. Be careful of the diet.

Dr. Barker said that ten glasses of water daily and plenty of butter-milk.

Before retiring, eat some light fruit or drink a solution of bran and water.

Wednesday morning the lecturer spoke at the assembly hall at the School of Mines. This afternoon, he will instruct the girls of the high school in sex education and tonight he will give his last lecture at the Y. W. C. A. at eight o'clock. Adequate plans are being made to accommodate the crowd of business women who are expected to hear Dr. Barker. The speaker will discuss the ailments common to the ship or stove girl who has to stand nearly all day at the counter or desk.

LEXINGTON, KY., PREPARED FOR ANOTHER OUTBREAK

(Continued from page 1.)

yesterday that caused the rioting. Under guard of the mounted police, the negro was brought from the state penitentiary to this city, marched to the court house, where he was charged with the murder of a white man, and sentenced to die in the electric chair March 11. Shortly after sentence had been pronounced, the negro was charged the entrance to the court house, bent upon lynching the negro. The troops fired and the machine guns into the crowd.

The mob waved the toll and then dispersed, leaving the toll dead and wounded behind.

Mountaineers Coming. Additional troops were rushed to the scene from Camp Zachary Taylor, during the late afternoon and evening, and many law-abiding citizens, including Gen. F. C. Marshall upon his arrival.

Reports last night that 1500 mountaineers were enroute to Lexington to Lynch Lockett caused the commanding officer to throw orders of the city and at every strategic point within the city. At 10 o'clock last night, the brigadier general announced that the situation was under control and that no further trouble was expected.

SOCIETY FOR ADVANCEMENT OF NEGROES LAUDS GOVERNOR

New York, Feb. 10.—The National Association for the Advancement of Colored People, which sent a telegram to Gov. Edwin P. Morrow, of Kentucky, containing resolutions of commendation for his attitude in defending the court house at Lexington against the mob seeking to lynch a white man.

"In commending your honorable action," the resolution said, "the board expresses the view that you have set a worthy example to all governors, and civil authorities everywhere, which, if followed, would relieve our country of the disgrace cast upon it when lynching was their will in overriding law."

RED CROSS MAKES NEW APPEAL FOR VOLUNTEER FLU NURSES

The El Paso chapter of the Red Cross is again making an appeal for nurses, either trained or untrained, as it has been unable to supply the demand both in the city and nearby sections. Red Cross officials request that any person having any experience in practical nursing and desiring to serve, should call on the present shortage of nurses during the influenza epidemic, register at Red Cross headquarters in the log cabin in San Jacinto plaza.

ALL AVAILABLE FREIGHT CARS GO TO GRAIN AREA

All available freight cars are to be sent to the grain growing centers without delay under an order issued by Hale Holden, regional director of railroads for the central western region with headquarters at Chicago. A copy of the order was received Tuesday by A. U. Tadlock, director of the traffic bureau of the chamber of commerce.

Grain moving, Mr. Holden says, must be largely done between Feb. 8 and 18.

TO PROBE NECESSITY OF REVISION OF COAL PRICES

Washington, D. C., Feb. 10.—The coal strike settlement commission has decided on appointment of a special committee to begin compilation of data bearing on the necessity for a readjustment of these prices in the fields. This decision followed protests Monday of a number of bituminous coal operators that they are suffering a loss under the maximum fixed prices and 14 percent wage increases to miners.

GENEROUS HOLDUPS ALLOW VICTIM TO KEEP \$5 BILL

As E. P. Lerner, 1116 Los Angeles street, was walking in the 300 block on North El Paso street, Monday night, two young Americans men stopped him. Each drew a revolver and one commanded him to put up his hands. They took \$20 from him.

The thieves asked Mr. Lerner what he had in his pocket. They took that but on the victim's request, permitted him to keep \$5 of the money. They also decided to take his watch and ring. After taking his money, the men ordered Lerner to "keep moving."

Lerner notified the police of the robbery.

"I have always had great admiration for the business ability of my friends," E. P. Lerner said, "but that important factor in his success has been considerable of a boost in my opinion since reading of the account of his holdup Monday night," said E. P. Morrow.

"I have been having many instances of quickwitted actions in business deals but it has remained for Mr. Lerner to take a step away in advance, in demanding of the two hold-up artists who relieved him of \$20, a 25 percent discount for the cash transaction and get away with it."

CROWD OF 15 TOURISTS FROM THE EAST VISIT HERE

Fifteen tourists came to El Paso in one crowd Tuesday on their way west. They are traveling under auspices of Cook's tourist bureau and are from all parts of the east. They registered at the Del Norte hotel in Juarez and made a trip over the city. Charles J. Barrett, of New York, was another tourist who visited El Paso Tuesday. He is with the American Express company and was in charge of P. R. Greenwald, of Cook's agency.

DAYTON WOMAN RELATES FACTS

Was wonderfully restored three years ago by Tan-lac.

"I can testify to both the immediate and lasting results one gets from Tan-lac, for it has been three years now since it relieved my suffering and built me up as wonderfully and I am still enjoying the best of health," said Mrs. J. C. Barrett, of 125 Kirkham Ave., Dayton, O., recently.

"My stomach had been in such a bad condition for two years," explained Mrs. Barrett, "that I could not eat anything but bread and butter without feeling sick afterwards, and seldom ate any breakfast at all. My nerves were so shattered that I could never get sufficient sleep and I felt tired and worn out all the time. I was sick from the worst kind of headache and my stomach troubled me nearly all the time. In fact, I don't think I was a single day in those two years but what I felt miserable and none of the many medicines I took did me any good."

"So many people here in Dayton were making statements and braving Tan-lac that I began taking it myself and it certainly is wonderful how quickly this medicine got me to feeling right again. By the time I had finished my first bottle there was a considerable improvement in my condition. My appetite was much better. I could sleep soundly and that tired feeling left me. Then I got another bottle, then another and when I finished three bottles every sign of my troubles had disappeared. Since that time I have been feeling just as well as I ever did. I am now able to enjoy Thanksgiving and Christmas dinner during the two years my stomach was in such a disordered condition. But since taking Tan-lac I enjoy these occasions like other people. For my appetite is splendid, my stomach is in excellent condition and my health is fine."

All druggists sell Tan-lac.—Adv.
